AUDIT

We render services for a wide variety of entities, we take the time to get to know you and understand your business thoroughly. Our audit partners and managers are actively involved in the planning and execution of the audit. IMS is a registered IRBA Audit Firm, and is an accredited SAICA and SAIPA training office.

We believe in adding value to our clients rather than just performing a statutory service. This has allowed us to build long standing relationships with our clients where we do not offer a simple annual audit, instead we deal with our clients on a regular basis providing advice wherever required.

Our client base covers most industries and includes mining, retail, property, investment and construction. Our audit and assurance services can help you meet the challenges of managing your unique risk. We work with you to help you identify and understand the risks facing your business and how to address these. We are proud of our high-quality audit reporting and robust independence. We keep you up to date with relevant financial reporting and related legislative and technical changes and provide you with the most appropriate advice to maximize the potential of your business.

There are many benefits that a business entity can avail by conducting a financial audit:

1. Maintain Consistency
2. Assist in Financial Planning
3. Obtaining Capital and Finance
4. Due-diligence
5. Fraud Detection
